The aromatic and medicinal plant fields are our word tool that we are happy to share with you.

The crops can be easily damaged if stepped over or because of repetitive comings and goings. **Maintening our crops, and manually and mechanically weeding the fields require over 1500 hours of work each year.**

Pictures and selfies, for a personal use, are even better when taken in respect of our crops and our neighbours. Profesional ones have to be agreed with specific conditions.

Thank you for being respectfull to our production.
